## Current Position

**Ph.D Student**, *Masaryk University*, Brno, since Feb 2017.  
Dissertation: The Scott adjunction - Towards formal model theory. Under evaluation.  
Advisor: prof. Jiří Rosický.  
Expected defence: mid September 2020.

## Education

- 2016 **Graduate Student in Pure Mathematics**, *Università di Pisa*.  
Dissertation: A survey on Barr's Theorem.  
Advisors: Prof. Nicola Gambino, prof. Alessandro Berarducci.
- 2015 **Bachelor Student in Pure Mathematics**, *Università di Pisa*.  
Dissertation: Definable groups in o-minimal structures.  
Advisor: Prof. Alessandro Berarducci.

## Research

**Category theory**, motivated by *logic* and *foundations* of mathematics. I have worked in **categorical logic, formal approaches to dualities of syntax-semantics type, locally presentable and accessible categories, topoi** as a foundational framework for topology and a geometric point of view on logic.
