Appointments

Postdoc

Gothenburg, Sweden

UNIVERSITY OF GOTHENBURG, DEPARTMENT OF PHILOSOPHY, LINGUISTICS AND THEORY OF SCIENCE

Grant: [Logical Foundations of Circularity](#)

Supervisor: [Graham Leigh](#)

Oct 2023 - Oct 2026

Postdoc

Stockholm, Sweden

STOCKHOLM UNIVERSITY, DEPARTMENT OF MATHEMATICS

Grant: SRC 2019-04545

Supervisor: [Anders Mortberg](#)

Jan 2022 - Sept 2023

Postdoc

Prague, Czech Republic

CZECH ACADEMY OF SCIENCES, INSTITUTE OF MATHEMATICS

Grant: [GX20-31529X](#)

Coordinator: [Wiesław Kubiś](#)

Jul 2020 - Dec 2021

Education

Ph.D. in Mathematics

Brno, Czech Republic

MASARYK UNIVERSITY

Dissertation: [The Scott Adjunction](#)

Advisor: [Jiří Rosický](#)

Feb. 2017 - Sept. 2020

MSc in Mathematics

Pisa, Italy

UNIVERSITÀ DI PISA

Dissertation: A survey on Barr's Theorem

Advisors: Nicola Gambino, Alessandro Berarducci

Mar. 2015 - Dec. 2016

BSc in Mathematics

Pisa, Italy

UNIVERSITÀ DI PISA

Dissertation: Definable groups in o-minimal structures

Advisor: Alessandro Berarducci

Sept. 2011 - Mar. 2015

Publications

- | | | |
|------|--|--|
| 2022 | Accessibility and Presentability in 2-categories , Journal of Pure and Applied Algebra, 10.1016/j.jpaa.2022.107155 . | j/w Fosco Loregian |
| 2022 | Exponentiable Grothendieck categories in flat Algebraic Geometry , Journal of Algebra, 10.1016/j.jalgebra.2022.03.040 . | j/w Julia Ramos González |
| 2022 | Enriched locally generated categories , Theory and Applications of Categories, Vol. 38, 2022, No. 17 , pp 661-683. | j/w Jiří Rosický |
| 2021 | General facts on the Scott Adjunction , Applied Categorical Structures, 10.1007/s10485-021-09666-6 . | |
| 2021 | Towards Higher Topology , Journal of Pure and Applied Algebra, 10.1016/j.jpaa.2021.106838 . | |
| 2021 | Functorial Semantics for Partial Theories , Symposium on Principles of Programming Languages (POPL21), 10.1145/3434338 . | j/w Loregian, Nester, Sobocinski |
| 2020 | Codensity: Isbell duality, pro-objects, compactness and accessibility , Journal of Pure and Applied Algebra, 10.1016/j.jpaa.2020.106379 | |
| 2020 | Gabriel-Ulmer duality for topoi and its relation with site presentations , Applied Categorical Structures, 10.1007/s10485-020-09605-x | j/w Julia Ramos González |
| 2019 | Weak saturation and weak amalgamation property , Journal of Symbolic Logic, 10.1017/jsl.2019.45 | |
| 2018 | Homotopical Algebra is not concrete , Journal of Homotopy and Related Structures, 10.1007/s40062-018-0197-3 | j/w Fosco Loregian |

Preprints

- 2023 **Coalgebras for Vietoris and monadicity**, [arXiv:2302.09529](#). New. *j/w Marco Abbadini*
- 2022 **The geometry of coherent topoi and Ultrastructures**, [arXiv:2211.03104](#). Submitted.
- 2022 **KZ monads and Kan Injectivity**, [arXiv:2211.00380](#). Submitted. *j/w Lobbia, Sousa*
- 2022 **Bi-accessible and bipresentable 2-categories**, [arXiv:2203.07046](#). Submitted. *j/w Axel Osmond*
- 2021 **Context, Judgement, Deduction**, [arXiv:2111.09438](#). Submitted. *j/w Greta Coraglia*
- 2020 **Formal Model Theory & Higher Topology**, [arXiv:2010.00319](#). Submitted.

Supervision

PhD students, *Errol Yukse*: supervision for a project on topos-theoretic Galois theory, Stockholm University.

Bachelor students, *Vít Jelínek*: Categorical View of Monads in Computer Science, Computer Science, Masaryk University. *Kento Okura*: Mathematics, Vienna University. *Alexander Lind*: Mathematics, Stockholm University cosupervised with Peter Lumsdane. *Jonathan Osser*: Mathematics, Stockholm University cosupervised with Anders Mortberg.

SIGPLAN long-term mentorship program, The [SIGPLAN long-term mentorship program](#). helps junior researchers and master students to form long-term connections in the programming languages community, and to access the perspectives of researchers from other institutions. Since Summer 2021 I am mentor in this project. I have 3 mentees.

Teaching

- 2023 **Categorical Logic**, Lecturer, Stockholm University, Stockholm, Sweden.
- 2021 **Sheaves, Manifolds and Cohomology**, Lecturer, Charles University, Prague, Czechia. *j/w Andrea Gagna*
- 2020 **Category Theory**, Lecturer, Institute of Mathematics, Czech Academy of Sciences, Prague, Czechia.
- 2020 **Topology**, Teaching Assistant, Masaryk University, Brno, Czechia.
- 2019 **Topics in Category Theory**, Lecturer, Masaryk University, Brno, Czechia. *j/w John Bourke*
- 2019 **Topology**, Teaching Assistant, Masaryk University, Brno, Czechia.
- 2018 **Topics in Category Theory**, Lecturer, Masaryk University, Brno, Czechia. *j/w John Bourke*
- 2017 **Rings and Modules**, Teaching Assistant, Masaryk University, Brno, Czechia.

Awards

- 2021 **Masaryk University Vice-rector's award for excellent results in doctoral studies**, Forty graduates of doctoral programmes and their lecturers have recently accepted from Vice-rector for research and doctoral studies Šárka Popišilová [an award](#) for excellent achievements in their doctoral studies at Masaryk University.

ItaCa, Promoting Committee, ItaCa is the Italian community of category theory. The project was founded by Giuseppe Metere in 2019. I was invited by Andrea Montoli to join the Programme committee of ItaCa 1, the first official meeting of the community. The event took place at the University of Milano, the webpage of the event is still available [at this link](#). Since this invitation I have been an active member of ItaCa. In the same year I was invited to join the Program Committee of ItaCa Fest. ItaCa Fest is a webinar aimed to gather the community of ItaCa. Click [here](#) to visit the webpage of the Fest. Since January 2021 I am one of the members of the **Promoting Committee**, this is the coordinating committee of the entire project.

Bohemian Logical & Philosophical Café, Founder, Scientific committee and Coordinator, Since my arrival at the Maths Institute of the Czech Academy of Sciences I promoted and I have been the general coordinator of a new initiative of webinars in emerging topics in logic. The project has a quite broad scope and is willing to encompass a variety of subjects: theoretical computer science, category theory, mathematical logic, and philosophy. More information is available [here](#).

Masaryk University Algebra Webinar, Founder and main organizer until July 2020, During pandemics I promoted to transform the local Algebra permanent seminar of Masaryk University into a permanent webinar. Especially at the beginning the whole organization was upon myself, many of the first speakers were directly suggested by me. I maintained the webpage and the youtube channel until the end of my PhD studies. Nowadays the [webpage](#) and [youtube channel](#) are maintained by John Bourke.

Peripatetic Seminar on Sheaves and Logic 103, Promoter and Coordinator, PSSL103 is a Peripatetic event in Categorical Logic. During my first year of PhD (2018) I promoted an instance of this tradition in Masaryk University. Having the approval of my advisor and Peter Johnstone, I was in charge of the organization. I coordinated the effort of other researchers, such as John Bourke, Simon Henry, Fosco Loregian and Micheal Lieberman. The webpage of the event is not online anymore, but the event is listed in [this webpage](#).

Referee, I was a referee for [Compositionality](#) (1), [Conference on Mathematical Foundations of Programming Semantics](#) (1) and [Applied Categorical Structures](#) (1), [International Conference on Formal Structures for Computation and Deduction](#) (1).

Thesis Reader at Masaryk University, Masaryk University evaluation process for Bachelor and Master thesis is based on a double review system. One review comes from the advisor of the student and another one comes from an internal opponent. Both the reviews must describe, discuss and finally score the thesis from A to F. During my PhD studies I was three times opponent for bachelor theses. 2019: Yuriy Dupyn, Algebraic Structures. 2018: Jan Jurka, Locally presentable categories. 2018: Vladislav Demenchuk, Elements of nonstandard analysis.

Thesis Reader (Granskare) at Stockholm University, Stockholm University evaluation process for Bachelor and Master thesis is based on a double review system. A part of the evaluation comes from an opponent and another one comes from a reader (granskare). The granskare must assess whether the thesis is solid enough to be defended. During my stay in Stockholm I was granskare few times. 2022: Thea Li, The internal logic of a topos. 2023: Caroline Roos, Agda formalization of Lindenbaum-Tarski algebras.

MathOverflow, top 5 % user, MathOverflow is a mathematics question-and-answer (Q&A) website, which serves as an online community of researchers in mathematics. It allows users to ask questions, submit answers, and rate both, all while getting merit points for their activities. It is a part of the Stack Exchange Network and has an internal rating system based on the reputation gained by the users within the website. [Here](#) is my profile webpage.
