Editorial

The Reasoner,

The Reasoner is a monthly digest highlighting exciting new research on reasoning, inference and method broadly construed. I joined the editorial board in late 2023.

Supervision

PhD students,

- [Errol Yuksel](#): supervision for a project on topos-theoretic Galois theory, Stockholm University.

Master students,

- [Fabian Ruch](#), General theory of Kan extensions and Kan lifts in the bicategory of Topoi. MSc (Logic). Gothenburg University. Ongoing.

Bachelor students,

- [Vít Jelínek](#): Categorical View of Monads in Computer Science, Computer Science, Masaryk University.
- [Kento Okura](#): Sheaf Semantics over the Étale Site, Mathematics, Vienna University.
- [Alexander Lind](#): Semantics for relevance logics, Mathematics, Stockholm University cosupervised with Peter Lumsdane.
- [Jonathan Osser](#): Exploring the Mathematical Multiverse, a brief overview of Elementary Topoi and their Internal Language, Mathematics, Stockholm University cosupervised with Anders Mortberg.

Other forms of supervision,

- [Lingyuan Ye](#): project for his Master studies on Givant categoricity theorem. MSc (M). Institute of Logic, Language and Computation, Amsterdam.

SIGPLAN long-term mentorship program,

The **SIGPLAN long-term mentorship program** helps junior researchers and master students to form long-term connections in the programming languages community, and to access the perspectives of researchers from other institutions. Since Summer 2021 I am mentor in this project. I have 3 mentees.

Teaching

- 2024 **Category Theory**,
Lecturer, Gothenburg University, Gothenburg, Sweden.
- 2024 **Functorial Semantics**,
Lecturer, Gothenburg University, Gothenburg, Sweden.
- 2024 **Introduction to Topos Theory**,
Lecturer, Gothenburg University, Gothenburg, Sweden.
- 2023 **Categorical Logic**,
Lecturer, Stockholm University, Stockholm, Sweden.

2021 **Sheaves, Manifolds and Cohomology,**
Lecturer, Charles University, Prague, Czechia.

j/w Andrea Gagna

2020 **Category Theory,**
Lecturer, Institute of Mathematics, Czech Academy of Sciences, Prague, Czechia.

2020 **Topology,**
Teaching Assistant, Masaryk University, Brno, Czechia.

2019 **Topics in Category Theory,**
Lecturer, Masaryk University, Brno, Czechia.

j/w John Bourke

2019 **Topology,**
Teaching Assistant, Masaryk University, Brno, Czechia.

2018 **Topics in Category Theory,**
Lecturer, Masaryk University, Brno, Czechia.

j/w John Bourke

2017 **Rings and Modules,**
Teaching Assistant, Masaryk University, Brno, Czechia.

Organising roles and Committees

Logic Colloquium 2024, Organising Committee,

In 2024 I was in the Organising Committee of the [Logic Colloquium](#).

ItaCa Fest, Scientific Committee,

[ItaCa Fest](#) is permanent online seminar of the Italian community of category theory. Since 2020 I am a member of the [Scientific Committee](#) that organizes the Fest. More information about my relationship with ItaCa is available in the Community section of the CV.

Bohemian Logical & Philosophical Café, Founder, Scientific committee and Coordinator,

Since my arrival at the Maths Institute of the Czech Academy of Sciences I promoted and I have been the general coordinator of a new initiative of webinars in emerging topics in logic. The project has a quite broad scope and is willing to encompass a variety of subjects: theoretical computer science, category theory, mathematical logic, and philosophy. More information is available [here](#).

Masaryk University Algebra Webinar, Founder and main organizer until July 2020,

During pandemics I promoted to transform the local Algebra permanent seminar of Masaryk University into a permanent webinar. Especially at the beginning the whole organization was upon myself, many of the first speakers were directly suggested by me. I maintained the webpage and the youtube channel until the end of my PhD studied. Nowadays the [webpage](#) and [youtube channel](#) are maintained by John Bourke.

Peripatetic Seminar on Sheaves and Logic 103, Promoter and Coordinator,

PSSL103 is a Peripatetic event in Categorical Logic. During my first year of PhD (2018) I promoted an instance of this tradition in Masaryk University. Having the approval of my advisor and Peter Johnstone, I was in charge of the organization. I coordinated the effort of other researchers, such as John Bourke, Simon Henry, Fosco Loregian and Micheal Lieberman. The webpage of the event is not online anymore, but the event is listed in [this webpage](#).

Community

ItaCa, Promoting Committee,

[ItaCa](#) is the Italian community of category theory. The project was founded by Giuseppe Metere in 2019. I was invited by Andrea Montoli to join the Programme committee of ItaCa 1, the first official meeting of the community. The event took place at the University of Milano, the webpage of the event is still available [at this link](#). Since this invitation I have been an active member of ItaCa. In the same year I was invited to join the Program Committee of ItaCa Fest. ItaCa Fest is a webinar aimed to gather the community of ItaCa. Click [here](#) to visit the webpage of the Fest. Since January 2021 I am one of the members of the [Promoting Committee](#), this is the coordinating committee of the entire project.

Referee,

I was a referee for [Theory and Applications of Categories](#), [Applied Categorical Structures](#), [Compositionality](#), [Symposium on Logic in Computer Science](#), [Conference on Mathematical Foundations of Programming Semantics](#), [International Conference on Formal Structures for Computation and Deduction](#).

MathOverflow, top 5 % user,

MathOverflow is a mathematics question-and-answer (Q&A) website, which serves as an online community of researchers in mathematics. It allows users to ask questions, submit answers, and rate both, all while getting merit points for their activities. It is a part of the Stack Exchange Network and has an internal rating system based on the reputation gained by the users within the website. [Here](#) is my profile webpage.

Invited Visits

- 2024 **University of Bologna, Bologna,**
Invited speaker at local research seminar by Martino Lupini. **Cancelled because of health issues.**
- 2022 **Manchester University, Manchester,**
Collaboration with Nicola Gambino.
- 2022 **Université catholique de Louvain, Louvain,**
Collaboration with Julia Ramos Gonzalez.
- 2022 **Université Paris Nord, Paris,**
Collaboration with Morhan Rogers.
- 2021 **Institute de recherche et informatique fondamentale (IRIF), Paris,**
Collaboration with prof. Paul-André Mellies and Axel Osmond.
- 2019 **Institute de recherche et informatique fondamentale (IRIF), Paris,**
Collaboration with prof. Sam van Gool.
- 2019 **Antwerp University,**
Collaboration with Julia Ramos Gonzalez.
- 2018 **Max Plank Institute, Bonn,**
Collaboration with Fosco Loregian.

Selected Talks at conferences

- 2023 **The geometry of coherent topoi & ultrastructures,**
UCLouvain, CT2023.
- 2022 **Bi-accessible and bipresentable 2-categories,**
Masaryk University, Peripatetic Seminar on Sheaves and Logic 106.
- 2021 **Givant, Morley, Zilber,**
University of Genova, ItaCa21.
- 2021 **Enriched Locally Generated Categories,**
University of Genova, Category Theory 2020->2021.
- 2021 **Formal Model Theory and Higher Topology,**
Online, Logic Colloquium 2021.
- 2019 **The Scott Adjunction,**
University of Edinburgh, Category Theory 2019.
- 2018 **An axiomatic approach to Gabriel Ulmer duality,**
University of Azores, Category Theory 2018.

Awards

- 2021 **Masaryk University Vice-rector's award for excellent results in doctoral studies,**
Forty graduates of doctoral programmes and their lecturers have recently accepted from Vice-rector for research and doctoral studies Šárka Popířilová **an award** for excellent achievements in their doctoral studies at Masaryk University.

Administrative Duties

Member of the Postgraduate Education Group (FUG) at Gothenburg University,

The Postgraduate Education Group (FUG) is an advisory body for postgraduate (third cycle) education at the department. FUG consists of representatives of the active supervisory boards, two representatives of the doctoral student board, and the responsible education administrator. Representatives are appointed by the Associate Head of Department for Doctoral Studies.

Thesis Reader (Granskare) at Stockholm University,

Stockholm University evaluation process for Bachelor and Master thesis is based on a double review system. A part of the evaluation comes from an opponent and another one comes from a reader (granskare). The granskare must assess whether the thesis is solid enough to be defended. During my stay in Stockholm I was granskare few times. 2022: Thea Li, The internal logic of a topos. 2023: Caroline Roos, Agda formalization of Lindenbaum-Tarski algebras.

Thesis Reader at Masaryk University,

Masaryk University evaluation process for Bachelor and Master thesis is based on a double review system. One review comes from the advisor of the student and another one comes from an internal opponent. Both the reviews must describe, discuss and finally score the thesis from A to F. During my PhD studies I was three times opponent for bachelor theses. 2019: Yuriy Dupyn, Algebraic Structures. 2018: Jan Jurka, Locally presentable categories. 2018: Vladislav Demenchuk, Elements of nonstandard analysis.
