Young Researcher, Czech Academy of Sciences, Prague.

Research coordinator: prof. Wiesław Kubiś.

Education

2016 Graduate Student in Pure Mathematics, Università di Pisa.

Dissertation: A survey on Barr's Theorem.

Research

Category theory, motivated by *logic* and *foundations* of mathematics. I have worked in categorical logic, formal approaches to dualities of syntax-semantics type, locally presentable and accessible categories, topoi as a foundational framework for topology and a geometric point of view on logic.
